PROFESSIONAL SUMMARY

Computer Engineering diploma student with hands-on experience building responsive, full-stack web applications using React, Tailwind CSS, and Node.js. Skilled at translating design concepts into clean, production-ready interfaces and integrating them with backend services. Strong interest in Artificial Intelligence and automation, with a track record of independently delivering multiple end-to-end projects. Seeking an internship to contribute to real-world engineering projects while growing as a full-stack and AI engineer.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, C++

Frontend: React, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB, SQL / Relational Databases

Tools & Platforms: Git, GitHub, VS Code, Figma

AI Tools & APIs: Gemini API, ChatGPT, Google Stitch, n8n

PROJECTS

AI-Powered Project Manager | [Live Demo](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB, Gemini API

- Built a full-stack project management app that uses the Gemini API to help users plan, organize, and prioritize tasks automatically instead of manual entry.
- Designed a responsive React + Tailwind CSS interface backed by a Node.js/Express API, with MongoDB used to persist projects, tasks, and user data.

Clothing E-Commerce Website | [Live Demo](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB

- Built a responsive online clothing store with a catalog of 100+ products, including listing, filtering, and product-detail pages.
- Used MongoDB to store and serve product data through a Node.js/Express backend, with a React + Tailwind CSS frontend for a smooth shopping experience.

Gift Shop Website | [Live Demo](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed an online gift shop featuring a catalog of 100+ personalized gift products with attractive, responsive product pages.
- Stored product data in MongoDB and served it via a Node.js/Express backend, with the React + Tailwind CSS frontend focused on visual appeal and UX across devices.

Car Purchase Website | [Live Demo](#)

React, Tailwind CSS, Node.js, Express.js, MongoDB

- Designed and developed a car-purchasing platform with 100+ vehicle listings and detail pages for browsing and comparison.
- Built a Node.js/Express backend with MongoDB to manage listing data, paired with a responsive React + Tailwind CSS frontend.
